

During COVID-19 Pandemic (Updated June 18, 2020)

However, please note the following restrictions, which are *in addition to* our regular Rules & Policies:

Anyone in the Pool Area must follow the guidelines set by New York State:

1. All individuals must maintain a distance of at least six feet from other individuals at all times, unless they are members of the same household or family unit.
2. Any time individuals are within six feet of individuals outside of their household or family unit and not in the water, they must wear an acceptable face covering that covers both the nose and mouth. Individuals must be prepared to don a face covering if another person unexpectedly comes within six feet.
3. Face coverings should NOT be worn by individuals while they are in the water.
4. Any single group of people on the premise or in the water should be 10 or fewer individuals; however, there may be more than one group on premise or in water so long as they are able to be separated by at least six feet.
5. Pool lounge chairs are not to be moved.
6. Flotation devices and pool toys will NOT be allowed in the pool this year.

Anyone on the grounds must follow the guidelines set by the Cayuga County Health Department:

1. If you are a transient camper, and you become ill with a fever, dry cough, or sore throat during your stay, please go home as soon as possible and contact your primary care physician. If you are a seasonal camper and experience these symptoms, please isolate yourself and call your primary care physician. If immediate medical attention is needed due to the worsening of these symptoms, call 911 and tell dispatch that you are experiencing symptoms typically associated with COVID19.
2. Practice social distancing. Stay at least 6 feet from others.
3. Wear a face covering when near other people.
4. Large social gatherings, greater than 25 people, are prohibited at this time.
5. Practice proper hand hygiene
 - a. Regular hand washing with soap and water for at least 20 seconds should be done:
 - b. Before and after eating.
 - c. After sneezing, coughing, or nose blowing.
 - d. After using the restroom.
 - e. Before handling food.
 - f. After touching or cleaning surfaces that may be contaminated.
 - g. After using shared equipment and supplies.
 - h. If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol. Use of alcohol-based hand sanitizers by children should always be supervised by adults.
6. Practice proper respiratory hygiene by covering coughs and sneezes with tissues or the corner of elbow. Dispose of soiled tissues immediately after use.
7. Wipe frequently touched surfaces with disinfecting wipes or other EPA approved disinfectants.
